PRICE LIST

NURSERY STOCK

KELLOGG'S NURSERY JANESVILLE, WISCONSIN

ANNOUNCEMENT

To our patrons greetings for 1921. It would be a pleasure to reply personally to every letter we receive containing words of appreciation but to do so would be a burden and we take this means of expressing our thanks to those who express their kind wishes.

A large number of our friends and patrons missed seeing our price list last season which has been a regular visitor into many homes for many years past; our failure to issue a price list was due to sickness and other causes over which we had We have to offer for this season a fairly complete line of stock but many items are very scarce and next to impossible to secure. This is especially true of cherry, grape and plum.

In the face of falling prices of many lines of food products it would be a mistake to curtail in any way the production of fruit of all kinds; it is not the money value of the fruit but its aid in promoting better health and better homes that makes the growing of fruit of the greatest value to the people of this country. Grow more, and more fruit you will not regret doing SO.

GENERAL INFORMATION

ORDERS are acknowledged at once upon receipt of same, and should you fail to receive an answer in ten days write us again. Always give your name and address and write same very plainly; also give full shipping directions.

Order early before the assortments are broken and thereby avoid dis-

appointment and possible delay.

Orders are shipped in rotation, as far as possible. Orders are shipped in rotation, as far as possible.

We offer a large stock of trees, plants, vines, etc., of the best standard varieties, well grown and thrifty. All stock is handled and packed under cover with no exposure to sun or wind; packing is done by experienced men under our personal direction.

We deliver the goods well packed to the transportation companies, after which our responsibility ceases.

WE DO NOT GUARANTEE STOCK TO GROW at the prices we ask. The planter must take that risk and give all stock good care. Where parties wish stock guaranteed to grow we do so but at an advanced price.

parties wish stock guaranteed to grow we do so but at an advances price.

GUARANTEE—We exercise the greatest care to have all stock true to name and grade and satisfactory in every way, but it is hereby agreed between the purchaser and ourselves that should any stock not prove true to name, on proper proof, we will replace it or refund the purchase price, but shall not be held for further damage.

CLAIMS—All claims for shortage, errors, etc., must be made within FIVE DAYS of receipt of stock, or same will not be allowed. Mistakes do occur; but we are always willing to do all we can to correct any errors for which we are responsible. But in making complaints be reasonable.

SUBSTITUTION—When any variety or grade is exhausted we reserve the right to substitute or to put in a smaller grade of trees, unless otherwise stated in the order, but in this case the true name will always be on such stock, and full value sent if smaller grades are used. We furnish 6 at dozen, 50 at hundred and 500 at thousand rates, and allow an assortment of varieties.

TERMS—CASH with order

TERMS—CASH with order.

REMITTANCES—Remit by draft upon Chicago or New York, registered letter, money order or express order. Parties sending personal checks must add 10 cents to cover cost of collection.

Plant With Care, and see that the earth is packed firmly about the roots and that all trees planted are thoroughly wet down and well mulched. The ground should be well prepared before planting and given thorough cultivation afterwards.

On receipt of stock dip roots in water and bury in moist ground, except strawberry and raspberry plants, which should not be wet, these should be heeled in in moist soil, open the bundles and spread out, packing the soil firmly to the roots. All stock should be set out as soon as possible

parties wishing same, a short list of instructions in regard planting and cultivation of stock, spraying and formulas, will be mailed

on request.

Any information not given in this list will be furnished on application. Owing to the uncertainty of freight shipments we advise all orders to be shipped by express.

Please give preference, if any, by what line you wish order shipped. Send your orders direct to an old reliable firm and save the profit of the middleman. We thank you for past favors and solicit your further orders and all orders sent us will receive our most careful attention.

KELLOGG'S NURSERY, M. S. Kellogg, Prop.

Parcel Post Shipments

The regulations of the Post Office Department are such that the shipment of trees by Parcels Post is not practical; packages of more than 84 inches in combined length and thickness are not mailable.

inches in combined length and thickness are not mailable.

The following weights will be a partial guide in helping to determine the amount of postage necessary.

Strawberry plants, 1 dozen, 1 pound. 50, three pounds. 100, five pounds, 200 seven pounds. 500 eighteen pounds. 1,000, thirty-pounds. Currants, Gooseberries, Grapes: 1 dozen, eight pounds. 25, seventeen pounds. 50, thirty-three pounds.

Raspberries, black: 1 dozen, 1 lb. 50, 4 lbs. 100, 8 lbs. Red, 1 dozen, 1 lb. 50, 3½ lbs. 100, 7 lbs. Blackberries same as black raspberries. Roses and Climbing Vines, ½ dozen, 4 lbs. 1 dozen, 8 lbs.

Flowering Shrubs 3 to 4 ft. not mailable. 2 to 3 ft. each 3 lbs. Dozen, 30 lbs.

30 lbs.

If you are in doubt as to how much to send for postage after you have asked your postmaster for the zone and rate; send enough for the postage or the goods will be sent by express. We will not open small accounts for postage and the surplus over enough to pay postage will be promptly returned.

Apples

In the propagation of this fruit we use as nearly all nurserymen do, the piece root graft, using a long cion and a short root.

The experience of over half a century has demonstrated that such trees are better for the north than either whole root grats or budded trees. When the long cion and short root is used the lower half of the cion (which is all below ground except the upper two inches) will nearly always start roots, and these being the same variety as the cion makes the tree hardier and longer lived.

Varieties marked thus * are recommended for the extrem north.

	\mathbf{Each}	Doz.	100
5 to 7 feet	\$.75	\$7.50	\$65.00

Roses

2-year bushes, 18 to 24 inches of wood, \$1.00 each; \$10.00 per dozen.

HYBRID PERPETUALS

FRAU KARL DRUSCHKI—(New.) A pure paper-white, large sized and free flowering. The bloom is perfect in form on fine, long stems, and during the past season in our Rose Gardens bloomed continuously from June till November.

GRUSS AN TEPLITZ-Deep, rich, velvety crimson-red. Constantly in bloom. One of the best dark roses.

SOLEIL d'OR—A cross between Persian Yellow and Antoine Ducher. It is a fine hardy outdoor Rose, showing much the same character as the Hybrid Perpetuals. Especially valuable because of its rare color; gold and orange yellow varying to ruddy gold suffused with Nasturtium red.

GEN. JACQUEMINOT-Deep red, free bloomer, fragrant, large size, one of the finest.

M. P. WILDER-Deep red, one of the finest red roses. Large size and Free bloomer. full.

ULRICH BRUNNER-Bright red, large size, fragrant. Very fine.

CLIO—Pink, large, fine in form either as bud or open flower. Very free bloomer. The finest pink Hybrid Perpetual.

JOHN HOPPER-Pink, large and full and a free bloomer; fragrant. MADAM PLANTIER-White, large size and very full, very hardy.

ANNA DE DIESBACH-Brilliant rose, large and very fragrant. Vigorous grower, and persistent bloomer.

MAGNA CHARTA—Bright pink suffused with carmine, large size. Strong upright grower, vigorous and healthy. One of the best.

PAUL NEYRON—The largest rose in cultivation, blooms often measure five inches in diameter; strong, vigorous grower. Pink. Very fresh and attractive.

ROSA RUGOSA ALBA—Bright shiny green foliage. flowers pure white, blooms in clusters. Very hardy; needs no winter protection.

ROSA RUGOSA RUBRA—Same as above. Flowers single, rosy crimson. PERSIAN YELLOW-An old favorite, and still one of the best yellow Roses for the yard. Deep golden yellow, semi-double.

MOSS ROSES

HENRI MARTIN-Rich glossy crimson; large globular flowers. PRINCESS ADELAIDE—Soft velvety pink, large blooms. Very hardy. One of the best.

CLIMBING ROSES

DOROTHY PERKINS—Beautiful shell pink, full and double, large size for cluster rose. Closely resembles the Crimson Rambler.

 ${\bf CRIMSON}$ RAMBLER—The most beautiful crimson climbing rose. Flowers in large pyramidal clusters of from 30 to 40 blooms, strong grower and hardy.

BALTIMORE BELLE-Blush white changing to white, blooms in clusters, flowers large and full.

QUEEN OF PRAIRIE-Pink, large, full, vigorous grower and blooms freely.

SEVEN SISTERS—Dark reddish pink changing to white as the petals fall. Very strong grower and profuse bloomer. Very hardy.

Shrubs

3 to 4 feet, 75ϕ each; \$7.50 per dozen. 2 to 3 feet, 50ϕ each; \$5.00 per dozen.

SPIREA VAN HOUTTII—(Bridal Wreath.) Large white flowers, early bloomer. "A snow bank of bloom." The finest of all shrubs.

BERBERIS THUNBERGII—Dwarf in growth with graceful drooping branches. Yellow bloom, scarlet fruit foliage green changing to scarlet and gold in the fall.

SYRINGA (Alba Grandiflora)—A large vigorous, upright growing arub. Flowers white, blooms very freely in June. shrub.

LILACS-Purple, white and variegated.

SNOWBALL -- A well known shrub, large white flowers latter part of May

HONEYSUCKLE—(Bush.) Red and white. Blooms in June.
GOLDEN ELDER (Sambucus Aurea)—Beautiful golden yellow foliage,

fine for single specimens or used in massing with other shrubs or alone.

SNOWBERRY (Symphoricarpas Alba)—Vigorous and hardy. Berries white

INDIAN CURRANT (Symphoricarpas Rubra)—Similar to above, berries red in color.

WEGELIA ROSEA—Blossoms in June, large trumpet shaped flowers of rose color that fade to nearly white. Very desirable.
WEGELIA VARIEGATED—Resembles Wegelia Rosea; has variegated

WEGELIA VARIEGATED—Resembles Wegelia Rosea; has variegated green and white leaves. Very choice.

WEGELIA EVA RATHKA—Similar to W. Rosea but has very fine dark rich red blossoms. Very choice.

HYDRANGEA ABORESCENS—"Hills of Snow." A new shrub but one that will give very satisfactory returns. Flowers of large size pure white, similar in shape to the Snowball but much larger. Blooms freely from June to August.

HYDRANGEA P. G.—A fine shrub, blooms August and September, large white flowers pyramidal shape, often a foot long. This can be pruned into tree form and will make a very large shrub often upwards of eight feet in height.

Climbing Vines

50c each: \$5.00 dozen.

HONEYSUCKLE—(Climbing) SCARLET TRUMPET Red. strong,

rapid grower, blooming all summer.

BITTER SWEET—One of the best native climbing vines, a vigorous grower and free bloomer, and very ornamental, even in late fall with bright red berries, which it retains all winter; needs no protection.

JAPAN IVY-One of the hardy climbers, clings to the smoothest

surface

AMERICAN IVY-(Virginia Creeper.) Native climber too well known

to need description

AKEBIA QUINATA—A perfectly hardy, fast growing Japan vine, with magnificent foliage, producing flowers in large clusters, of chocolate purple color, possessing a most delicious perfume; unsurpassed for covering trellises and verandas, the foliage never being attacked by insects.

Clematis

2-year, each, 75ϕ ; dozen, \$7.50. In planting the Clematis be careful to put them in quite deeply even to 4 to 6 inches below the surface. This will often prevent loss by the breaking off of the vine just where it leaves the root. Also be sure that they are well firmed in to prevent drying out.

that they are well firmed in to prevent drying out.

C. JACKMANII—A very profuse blooming variety with flowers from four to six inches in diameter, of an intense violet-purple color borne to six inches in diameter, of an intense violet-purple color borne to six inches in diameter, of an intense violet-purple color borne.

successionally in continuous masses on the summer shoots. The very best sort for general planting.

C. HENRYII—Fine bloomer; flowers large, of a beautiful creamy white, consisting generally of from six to eight petals June to October.

C. MADAME EDOURD ANDRE—Flowers large, of a beautiful bright velvety red, very free flowering and continuous bloomer.

C. PANICULATA—A great novelty. One of the most desirable, useful and beautiful of hardy garden vines, a luxuriant grower profuse bloomer with fine foliage. Flowers of medium size, very pretty and fragrant, produced in the greatest profusion in late summer. produced in the greatest profusion in late summer.

Peonies

Each, 75¢; dozen, \$7.50.

DUCHESS DE NEMOURS (Calot)—Cup-shaped sulphur-white flowers, fading to pure white.

EDULIS SUPERBA (Lemon)—Lovely rose-pink, fine form, high tufted

center; very early.

FESTIVA MAXIMA (Miellez)—The standard of perfection in Peonies; paper-white with few carmine flakes.

MARIE LEMOINE (Calot)—Solid, massive, flat bloom of large size; delicate ivory white; very double flowers and the earliest white peony.

OFFICINALIS ROSEA—Very early, large pink.

OFFICINALIS RUBRA PLENA—Deep crimson; very early; one of the

OFFICINALIS TENIFOLIA-Rich, crimson, single. RUBRA TRIUMPHANS-Dark purplish crimson.

Phloxes

TALL CHOICE PERENNIAL VARIETIES. OUR PLANTS ARE WELL GROWN AND STRONG

Hardy Phloxes have long been so popular that it is rare to find a garden without a collection of at least a few of the many beautiful varieties now in cultivation. No plant is more attractive or more useful, either for the adornment of the garden or for supplying cut flowers.

To those not familiar with these plants we desire to say that they are perfectly hardy, and succeed well in almost any kind of soil. Small plants are usually selected to start with, as they increase rapidly in size, not in height so much, which is from 2 to 3 feet, but in the number of flower stems, which multiply year after year.

Assorted colors, white, white with lavender eye, pink, pink and white, red, lavender, and light red. 10¢ each; 75¢ per dozen.

Strawberries

Our stock of plants this season will be from a grower at Ft. Atkinson, and orders will be forwarded to him and plants shipped direct to our customers by parcels post or express as desired. We will not accept

orders after April 20th except conditionally; that we are able to supply the plants.

*SENATOR DUNLAP—Per. Medium to large, conical, dark red, very firm and a good shipper. A vigorous grower and usually makes too many plants for best results, unless growth is restricted. It is as productive as Warfield, berries are better colored and a third larger. The best market variety and no list is complete without it. Succeeds over a wider range of country than any variety we have grown in forty years; is our main market variety.

DR. BURRILL—A valuable new variety. We believe it will displace even the Dunlap for main market berry. Large to very large, dark red to the center and of finest flavor. Firm, good keeper and ships well. Plant upright bushy grower, vigorous, hardy and very productive. Our supply of plants is not large and orders will be booked only by the dozen or hundred.

WARFIELD-Imp. Medium size, roundish conical, dark red, firm and of first quality, mid-season. A vigorous market variety; perhaps more largely grown than any other. This and Senator Dunlap make a fine pair. Produces the best crops on a soil that is not too light and should have a soil that is right in fertility and full of humus. A small plant but has wonderful vitality and productiveness.

Everbearing Strawberries

We have been growing this class of strawberries for the past twenty

We have been growing this class of strawberries for the past twenty years and have tried about all the varieties that have been placed on the market. Out of the thirty or more kinds we have grown we are retaining two as being worthy of general planting.

In growing the Everbearers the following is the most improved method of culture. Plant as early in spring as the conditions of soil and weather will permit, keep all bloom removed from the plants until about one month before you wish the fruit to begin to ripen. Allow the plants set to produce from four to eight runners and when these are rooted keep all other runners cut off as soon as they appear. You will then have a hedge row or half matted row system and if clean culture is given and with good fertile soil you will get lots of berries. If you wish fruit do not let them make too many plants. A bed of the Everbearers after having fruited the year of planting should be well If you wish fruit do not let them make too many plants. A bed of the Everbearers after having fruited the year of planting should be well covered and can be carried over to fruit the following June if desired or the fruit stem can be kept off the second season until July 15th and they will bear again in the fall. Right varieties, rich soil and good culture will win with the Everbearers but the greatest of these is GOOD culture. culture.

PROGRESSIVE (Rockhill's No. 16.) Originated by Harlow Rockhill of Iowa and said by him to be his best variety, among the many he has produced. Large size and fine quality. Productive.

Prices of Strawberry Plants Spring 1921

Dozen, 50ϕ ; Hundred, \$1.25; Thousand, \$10.00. Everbearers—Dozen, 75ϕ ; Hundred, \$2.00.

Strawberry Boxes

We carry a line of berry boxes and will quote prices on application.

Tree Protectors

We offer veneer tree protectors, the best cheap protector on the arket. Will last 2 to 4 years. 25¢ per dozen, \$1.00 per 100. Special market. prices on larger quantities.

Inspection---Fumigation

Entomologist's Certificate of Inspection will accompany all shipments. We are prepared to fumigate with Hydro-cyanic Acid Gas, and will do so when requested, or where State laws require it.

GARDEN SEED

We have arranged with an old and reliable Wisconsin seed house to supply us with strong, true-to-name, tested garden seed of the best varieties. Let us have your seed order this year and we will see that it gets careful and immediate attention. All prices are post-paid.
